GitHub: <https://github.com/King-Miguel>

SUMMARY

Full-stack developer (BSIT, Web & Mobile App Development) who ships end-to-end web apps. Capstone RenTruck is a live B2B platform for a real construction client, built solo across system design, database, API, and UI. Open to remote-first roles only (internship, OJT, or full-time) where I can own features and ship product.

CURRENTLY

Mobile Development

Oct 2026 - Present

Building QuestLog (React Native / Expo habit tracker with RPG progression), deepening TypeScript, and studying practical system design while finishing capstone defense and OJT requirements.

EDUCATION

Bachelor of Science in Information Technology

2023 - Present

Specialization: Web and Mobile Application Development

College of Sciences, Technology and Communications, Inc. (CSTC)

Expected graduation: May 2027 (incl. OJT ~400 hrs)

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, SQL, Java
- **Frontend:** Responsive UI, Bootstrap, Tailwind CSS, React / Next.js
- **Backend:** Node.js, Express, REST APIs, Authentication, multi-role access control
- **Databases:** PostgreSQL, Supabase, Prisma, SQLite
- **Mobile:** Android Studio (Java), React Native / Expo
- **Cloud and tools:** Vercel, Git, GitHub, VS Code

PROJECTS

RenTruck - B2B Equipment Rental and Inventory Platform | Capstone

Live: rentruckph.com

Production platform for VFL Builders (Tayabas, Quezon), a government-accredited construction company. Solo full-stack delivery: 28-model database, 65-endpoint API, multi-role access (admin, engineer, field operator, client), payment verification, and revenue reporting. Live commercial pilot, ready for handover.

Stack: Next.js, TypeScript, PostgreSQL, Supabase, Tailwind, Vercel

Nexus - Project Management Platform

Live: nexus-alpha-ten-11.vercel.app

Full-stack project management with Kanban boards, analytics dashboards, financial tracking, command palette, and soft-delete with undo. NextAuth workflows, Recharts data viz, Prisma + PostgreSQL.

Stack: Next.js 14, TypeScript, PostgreSQL, Prisma, NextAuth, Recharts, Tailwind
